	<div><div></div><div>Enable video support in the website</div><div><div></div><div>embedd video in website</div></div></div>		<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	
	<div><div></div><div>Build Brock University database</div><div><div></div><div>Add more tables as per data requirements</div><div><div></div><div>database</div></div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	
	<div><div></div><div>As a user, I would like to have the software open to a starting menu so that I can navigate to the Brock University or Canada Games version of the software</div><div><div></div><div>Design splash page</div><div><div></div><div>front-end</div></div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	
	<div><div></div><div>As a user, I would like the webpage to have a desktop and mobile version so that it will be properly formatted on all of my devices.</div><div><div></div><div>Develop a mobile version</div><div><div></div><div>front-end</div></div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	
	<div><div></div><div>Test the NER for matching on subject-specific entities</div><div><div></div><div>Create test data for people names (staff/faculty/acad advisors etc), evaluate NER performance</div><div><div></div><div>nlp</div></div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	
	<div><div></div><div>Test the NER for matching on subject-specific entities</div><div><div></div><div>Create test data for locations, evaluate NER performance</div><div><div></div><div>nlp</div></div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	<div><div></div><div></div></div>	

As a user, I would like a return button to so that I can return to the starting menu

- Add a return button for the website 
  - clarify
  - front-end

MJ

As a user, I would like the chatbot to be able to recognize most minor typos or misspellings so I don't have to waste time rephrasing obvious mistakes

- Set up pre-processing step for spelling correction
  - nlp

BP

Generate a text response using results from query

- Generate text response for course info questions using database info
  - nlp

BP SL MJ

As a user, I would like the UI to have a professional-looking and functional look so that the software has a quality feel

- add logo and chatbot name to tab bar
  - front-end

JJ MJ

Train the NER to increase accuracy on matching entities relevant to our problem

- Look into process for doing fine-tune training of NER
  - nlp

SL

As a developer, I'd like the application to be easily deployable to a server with all required dependencies

- Research available deployment options
  - back-end

JJ G KS

Make a query using NLP keywords

- Retrieve NLP keywords to query the database
  - database
  - nlp

SL

As a user, I would like to have the software open to a starting menu so that I can navigate to the Brock University or Canada Games version of the software

- Develop splash page  
  - front-end

MJ

Make a query using NLP keywords

- Research SQLAlchemy query methods
  - query

KS
